OBJECTIVE:

Project management, now a days, is regarded as a very high priority as all companies or organizations are involved in implementing new undertaking, innovations and changes.

The development of project management has always been parallel to the development in general trends in worldwide economics. It is important to have continuous learning and development of project management capabilities in organizations. This allows corporate teams in a fast changing world to work collaboratively in defining plans and managing complex projects by synchronizing team oriented tasks, schedules and resource allocations.

However, gaining and sharing project information is not the only key to success. Today’s information technology allows project managers to practice and work with their team in real time environment.

In last two decades global project management has assumed a great importance, especially after opening up the economy by Indian government and other countries.

However, concept of global project management has been slow to emerge. Many researchers have emphasized the pressures and challenges of project management in the foreign market, yet there has been far less study of the globalization of the project management.

The proposed seminar is aimed at updating the participants, in the field of project management about the project management process, basic concepts, techniques and skills required to work as a team member to manage the project. Also there is a need to study and highlight the issues involved in the global project management.

ELIGIBILITY:

The seminar is open for faculty members, professionals from corporate world and post graduate students interested in the field of project management.

RESOURCE PERSONS:

The resource persons will be from Project Management Institute, Deccan India Chapter, Pune.

ABOUT THE COLLEGE

Walchand College of engineering, an autonomous institute was established in 1947. It is located on the picturesque campus of about 100 acres in Vishrambag, Sangli.

Along with the UG courses, the college runs post graduate courses in the civil (Structural and Environmental), Electronics, Computer Science, Mechanical (Design, Heat Power and Production), Electrical (Control System and Power Systems) streams. The college also has the Ph.D. center affiliated to the Shivaji University.

Sangli is a District Headquarter and is located on the major Railway Lines connecting to Mumbai, Bangalore, Nagpur, New Delhi, and Ahmadabad. Climate in Sangli is moderate in all the seasons.

PROGRAM SCHEDULE:

DAY1:	
8.30 am to 9.30 am	Registration
9.30 am to 10.30 am	Inauguration / Key Note Address
11.00 am to 4.30 pm	Technical Sessions I to II
DAY2:
